

# DocuSign Chrome SAML Decoder Instructions

## Quick Guide

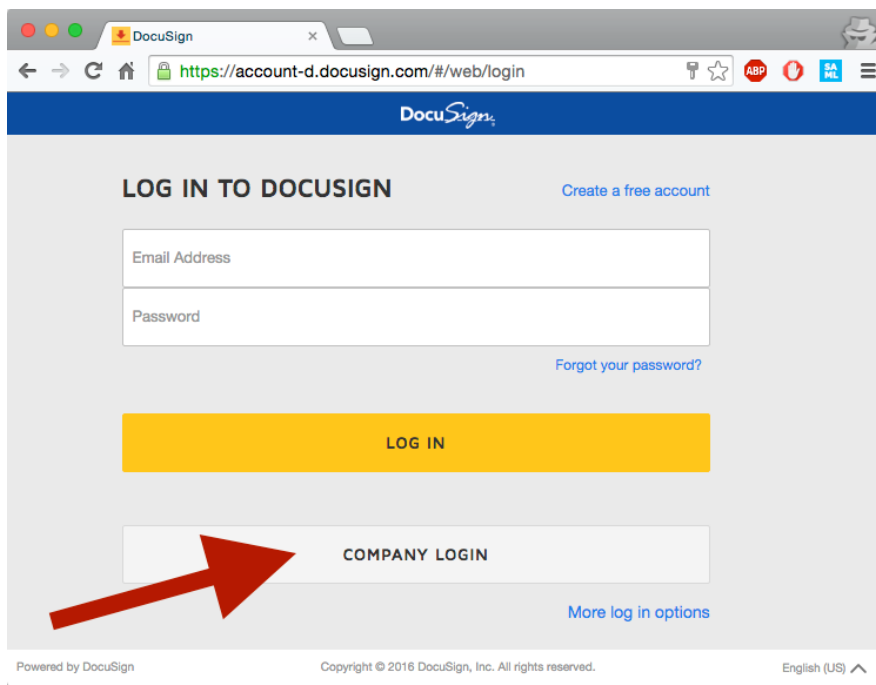

1. Download and install **Chrome SAML Message Decoder**:  
<https://chrome.google.com/webstore/detail/saml-message-decoder/mpabchoaimgbdbbjjieoaeiibojelbhm?hl=en>

### SAML Decoder Plug In Installation

2. Navigate to the DocuSign Login Page
  - a. Demo: <https://account-d.docusign.com>
  - b. Production: <https://account.docusign.com>

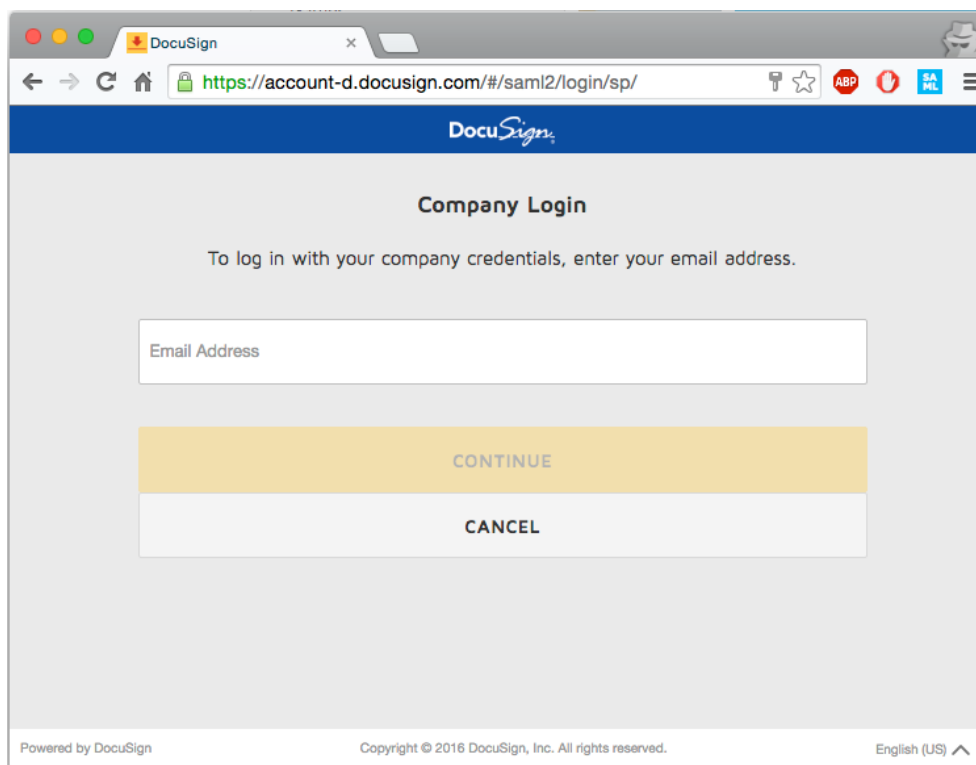

3. Click the **Company Login** button

The screenshot shows a web browser window with the DocuSign login page. The URL is <https://account-d.docusign.com/#/web/login>. The page has a blue header with the DocuSign logo. Below the header, the text "LOG IN TO DOCUSIGN" is displayed, followed by a link "Create a free account". There are two input fields: "Email Address" and "Password". Below these fields is a link "Forgot your password?". A large yellow button labeled "LOG IN" is centered. Below the "LOG IN" button is a white button labeled "COMPANY LOGIN", which is highlighted with a large red arrow. At the bottom right of the main content area is a link "More log in options". The footer contains the text "Powered by DocuSign", "Copyright © 2016 DocuSign, Inc. All rights reserved.", and "English (US)".

*Login Page – Company Login Button*

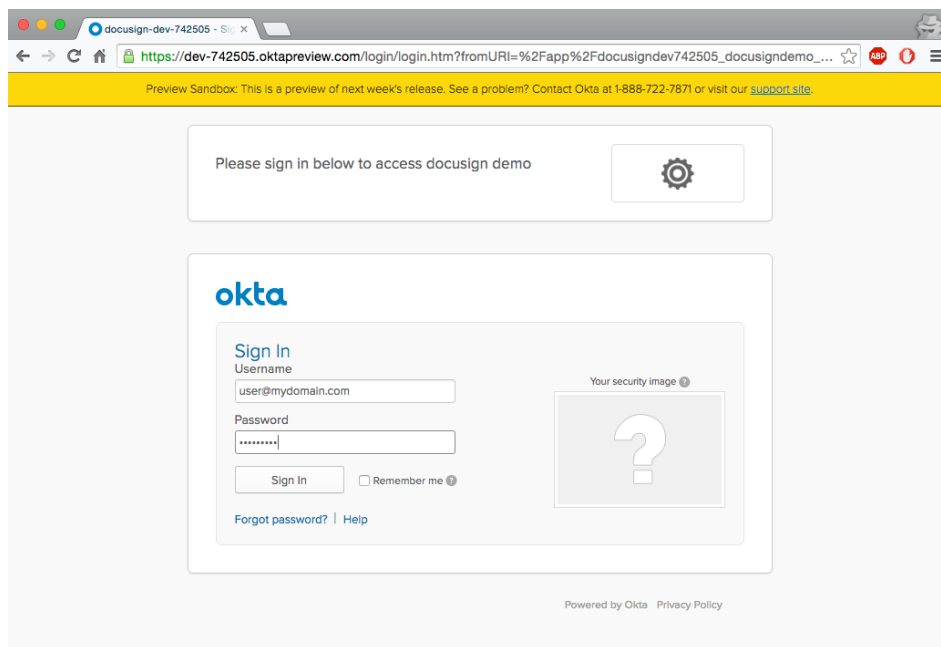

4. Type your corporate email in the email address textbox and hit **Continue**
  - a. This will navigate you to your companies Identity Provider for login. If you are already logged into the Identity Provider, it should forward you straight to DocuSign for Login

The screenshot shows a web browser window with the DocuSign "Company Login" page. The URL is <https://account-d.docusign.com/#/saml2/login/sp/>. The page has a blue header with the DocuSign logo. Below the header, the text "Company Login" is displayed, followed by the instruction "To log in with your company credentials, enter your email address." There is one input field labeled "Email Address". Below the input field are two buttons: a yellow button labeled "CONTINUE" and a white button labeled "CANCEL". The footer contains the text "Powered by DocuSign", "Copyright © 2016 DocuSign, Inc. All rights reserved.", and "English (US)".

*Company Login Page – Enter Email*

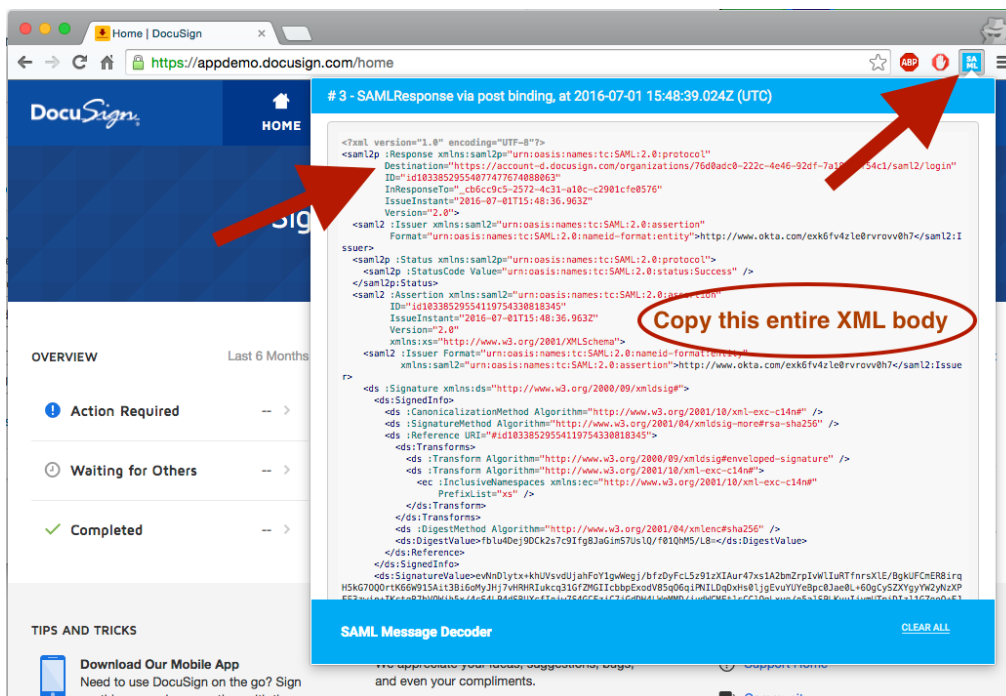

- If redirected to your Identity Provider for login, provide your credentials and sign in to your identity provider

*Identity Provider Login Page – In this case it is Okta*

- After attempting to sign in, open up the **SAML Decoder** plugin and find the entry where the 'Destination' value begins with <https://account-d.docusign.com/organizations> (if testing from DEMO) or <https://account.docusign.com/organizations> (if testing from PROD). The entry should be at the top.

Copy the entire body of the SAML assertion and send that to DocuSign. The body should start with `<?xml version="1.0" encoding="UTF-8"?>` and it should end with `</saml2p:Response>`

*SAML Assertion posting to DocuSign*
